DIARY NOTES

25X1A

DD/S 

9 October 1963

1. At the Executive Committee Meeting this morning:

a. General Carter requested that in the future when the Director or any comparable important person speaks in the auditorium his remarks be recorded so that they can have further dissemination if this is desired. (I have written a memorandum to the Director of Logistics on this subject.)

25X1A6b

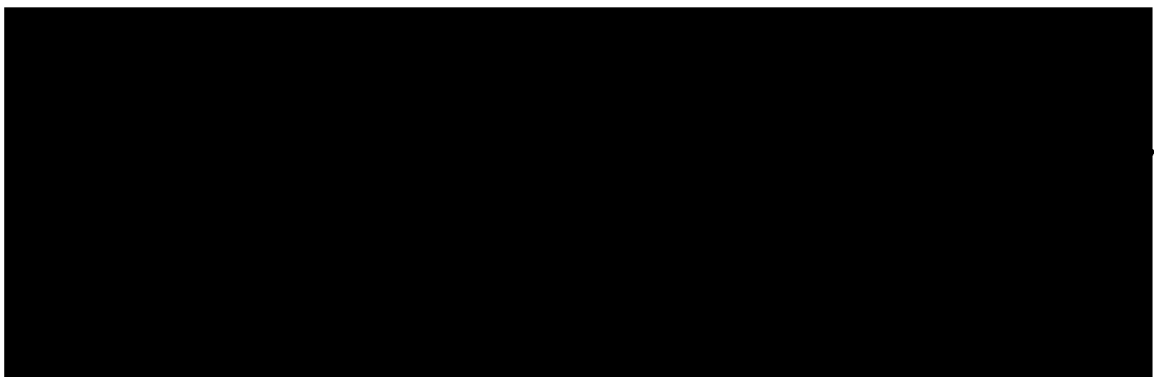

b. General Carter reported that he understood the Midcareer Course at  was going very well indeed. Mr. Kirkpatrick and Mr. Helms both confirmed this and said that from their point of view this was indeed a very sharp group of students. General Carter picked up where I left off at the Senior Staff Meeting and re-emphasized the fact that this is really a Midcareer Program, of which this Course is only a part, and requested that Deputy Directors ensure that persons in the Midcareer Program receive a comprehensive group of experiences and training during the approximate five-year period.

25X1A9a

25X1A9a 2. I advised  that I was prepared to appoint Gates Lloyd to replace  as Chairman of the Insurance Task Force unless Emmett Echols has some better idea. I asked him to pass this on to Emmett and to have him discuss the matter with me at his earliest convenience.
